SUMMARY

Experienced Django developer with 2.5+ years of experience. Fast learner and creative problem solver with a passion for Data Sciences, Data structures, and Algorithms. Seeking an opportunity to apply skills and contribute to innovative projects in a dynamic organization.

SKILLS

Programming	Python, C++
Framework	Django, Flask
Cloud Platform	GCP
Familiar	React, JavaScript, Postgres, Git, Redis, HTML, CSS

EXPERIENCE

Superwin.ai — Software Developer March 2022 - Present

- Developed and maintained web applications using **Django** framework.
- Designed and developed **RESTful APIs** for seamless integration with frontend applications.
- Integrated third-party applications using **OAuth** for secure data retrieval and synchronization.
- Conducted **unit testing** and participated in code reviews to ensure code quality.
- Deployed applications on **GCP App Engine** and managed queues and cron jobs.

MountBlue Technologies Pvt Ltd — Software Engineer Oct 2021 - Mar 2022

- Convert various part of the code written in Monolithic Architecture to Micro services.
- Set up Redis cache to minimize the number of network calls while accessing the data from server.
- Designed and developed RESTful APIs

EDUCATION

BTech Computer Science And Engineering, Parul University 2016-2020
CGPA: 8.5/10

Class XII: 75% 2014-2016

Class X CGPA: 9.4/10 2013-2014

PROJECTS

SIMILAR IMAGE RETRIVAL ([link](#))

Model Built: Converted images into numpy array, normalized it, and trained KNN model on them.

Result: Got 90 percent accuracy on the model and showed a similar image by comparing the neighbors.

CODING PROFILE

LeetCode: Problem Solved :1000+

Google Kick Start (Highest Rank) : 1500
